

Six Sigma Leadership Jumpstart Training

For aligning your business strategy to your Six Sigma Efforts

Program Participants

The Six Sigma Leadership Jumpstart is designed for the leaders and functional stakeholders who will assertively sponsor your Six Sigma efforts. Participants should be in a position to identify critical customer requirements and critical business issues, commit to improvements, allocate resources, and sponsor project teams.

Program Overview

The Leadership Jumpstart introduces your senior management to Six Sigma principles and methodologies. With this workshop, your senior executives build a solid action plan for your Six Sigma initiative. Aligning your organizational strategy and goals to your Six Sigma efforts is the key result of the Jumpstart.

The Jumpstart enables your senior executives to :

- understand the importance and impact of Six Sigma Quality,
- identify the key criteria for success and best practices directly related to Six Sigma,
- learn how Six Sigma supports your strategic business goals,
- select high-impact Six Sigma projects for implementation,
- allocate resources for identified projects, and
- plan a change campaign for your Six Sigma initiative.

Program Outcome

Result of Day One : Leadership alignment to your organizational scorecard (vision, mission, strategic objectives, key metrics, and stretch goals)

Result of Day Two: Prioritization of the improvement projects that will have the greatest impact on your business results.

Program Duration: Two days

Location: This program is available for in-house session.
