

Lean Six Sigma Champions Training

For Preparing Project Champions / Sponsors to Support Six Sigma

Program Participants

Project Champions drive Six sigma in your organization. They are accountable and responsible for Six Sigma Projects. It is their role to identify & remove obstacles that Six Sigma teams may encounter and to conduct rigorous reviews to monitor progress. They focus on action and ensure that the projects are completed successfully. Preparation of the Champions is critical to the overall success of your Six Sigma efforts

Program Overview

Champions learn how to manage Six Sigma effectively. In this training they focus on Six Sigma tools and methods, and review situations where the tools can be applied within improvement projects. The program content provides a high-level view of the training delivered to Black Belt / Green Belt candidates. Champions will be able to

- Appreciate the importance and impact of Six Sigma quality.
- Define their roles and responsibilities and roles of Black Belt / Green Belt / other stakeholders of Six Sigma Progress.
- Understand the DMAIC model and associated tools
- Application for improvement tools and understand how to review the projects.
- Use templates for toll-gate reviews.

The DMAIC model is a systematic method for analyzing and improving business processes. It consists of five phases.

- Define
- Measure
- Analyze
- Improve
- Control

Program Duration: One

Location: This program is available for in-house session.

Our Champions training is highly customized to meet your organization's needs. The training content is delivered to your Champions within the context of your prioritized improvement projects.
